

# CPAP PRO® Is Now Available Through The VA & Other Military Facilities

If you have been diagnosed with sleep apnea and are having difficulty utilizing conventional cpap masks, we would suggest that you print out this page and discuss with your doctor the benefits of CPAP PRO® the only nasal interface that has no irritating straps or headgear so that your physician can ascertain if CPAP PRO® would assist you in the nightly utilization of cpap.

## Physician Prescribing Information

CPAP PRO® is a unique nasal interface that has enabled thousands of sleep apnea patients to comfortably follow the nightly regimen of cpap. CPAP PRO utilizes an easy to form boil 'n bite mouthpiece that affixes securely to the patient's upper arch. The mouthpiece can be prepared by the patient at home in just minutes. Complete easy-to-follow are included with each unit.

Since the upper arch continually stays in perfect alignment with the nostrils, utilizing CPAP PRO the patient can twist and turn as well as sleep in any position with all nasal components staying in place eliminating leakage, skin irritation and claustrophobia as well as patient non-compliance.

## GSA Ordering Information

Stevenson Industries, Inc has been awarded a VA Federal Supply Service Schedule Contract #V797P-4165B under Schedule 65IIA Medical Equipment and Supplies qualifying them as an approved vendor to sell the CPAP PRO to Government agencies. The VA National Acquisition Center is responsible for administering these contracts to serve Government agencies including but not limited to VA Medical Centers, Department of Defense, Bureau of Prisons, Indian Health Services, Public Health Services and some State Veterans Homes.

Prescribing doctors at these Government agencies can now order the CPAP PRO and replacement parts directly from Stevenson Industries, Inc.
